## Service & Maintenance Programs

TEAM Irrigation maintains a full stock of genuine Lindsay Zimmatic irrigation components and they can also service and maintain **all brands** of centre pivots and lateral move irrigators. Our stock levels provide the prompt service our clients seek and recent fall downs in the Macquarie Valley have been fully resolved within client expectations due to our stock availability and priority servicing.

tools whenever a client experiences a breakdown with a crop underneath and ensures that this breakdown takes priority over all other work. Stock held in Dubbo saved our crop and I was very impressed with the minimum time it took for us to be fully operational again”

Akoonah Farming Enterprise at Narromine operated this 12 year old six span centre pivot with an 80 acre corn crop growing underneath in January 2009. After a fall down on a Friday night, TEAM Irrigation was able to re-pipe and repair four Lindsay Zimmatic spans within four days thus preventing any further loss or damage to the crop. Stock held in Dubbo enabled our service team to complete the required work within an efficient timeframe during extreme weather conditions. Alex Ballhausen from Akoonah Farming said, “It is very obvious that TEAM Irrigation will down

Growers need to prepare themselves for such disasters. Regular maintenance inspections of equipment, control of water quality and testing for corrosion can help prevent major structural defects on irrigators. TEAM Irrigation offers a

service maintenance program for **all brands** of centre pivots and lateral move irrigators. Call Craig Chandler on 6885 5220 for further information.

### Insurance

The start of a new year is an appropriate time to review your insurance policies on your irrigators. Growers insuring their irrigators for fire and theft need to expand their policy to cover mechanical, electrical and structural failure. Review the details on your policy. Is your irrigator covered for being hit by a vehicle, going off line and running into a tree or just a mechanical failure resulting in it falling down? TEAM irrigation can provide prompt quotes and repairs for all insurance work, so please ensure you are fully covered.
