Replacement Components For Any System

TEAM Irrigation operates a fully stocked warehouse at 69 Fitzroy Street North Dubbo. Here you can access replacement parts for all makes and models of irrigation equipment including tanks, pumps, gearboxes, pipes, fittings, engines, sprinklers, control systems, water meters and a range of Spitwater pressure cleaners.

Do you need reliable service 7 days a week?

Team Irrigation is committed to keeping your system up and running, regardless of make or model. We pride ourselves on being available before, during and after the sale of irrigation systems, 7 days a week.

Our service teams have over 30 years experience in maintaining all models of irrigation equipment in Australia. We can supply the parts to keep your system running smoothly, season after season.

Service When You Need It

From the initial pre-sale planning and customisation stage to routine maintenance and emergency field repairs, qualified technicians are always available to keep your system up and running.

Certified Support

Team Irrigation are experienced irrigation professionals with staff that have undergone rigorous training to achieve certification. All staff receive ongoing training to keep them up to date with the latest trends in irrigation technology and service.

Customer Training

When you buy products from TEAM Irrigation, you get more than just hardware. You'll also receive hands-on training sessions and field demonstrations that will keep you up to date with the latest irrigation methods and maintenance techniques.
